Calculation of certain permit fees shall be based upon the number of square feet (sq. ft.) involved in the project.

The term "square foot" shall be defined as:

- a. For purposes of residential construction, "square foot" shall be defined to include the living space on all floors of the building construction. The computation of the total number of square feet shall include the total of all square feet of living space on all floors of the building construction.
 1. Living space shall be defined as space within a dwelling unit utilized for living, sleeping, eating, cooking, bathing, washing and sanitation purposes. The square footage shall be determined by measuring the perimeter of the building envelope.
- b. For the purposes of residential accessory structures that contain one thousand (1,000) square feet or more as measured by the building envelope or has a floor above grade, "square foot" shall be defined to include all floor space on all floors. The square footage shall be determined by measuring the perimeter of the building envelope.
