Calculation of certain permit fees shall be based upon the number of square feet (sq ft) involved in the project.

- a. For purposes of commercial construction, "square foot" shall be defined to include all floor space on all floors, including the basement and/or crawl space enclosed by the building envelope. The term "building" shall be defined as any structure used or intended for supporting or sheltering any use or occupancy other than detached one (1) and two (2) family dwellings and multiple single family dwellings (townhouse) not more than three (3) stories in height and with a separate means of egress and their respective accessory structures. The square footage shall be determined by measuring the perimeter of the business envelope.
- b. For purposes of industrial structures, "square foot" shall be defined and calculated in the same manner as for commercial construction.
